Electric Committee Work Session Minutes

Attended:

Rachel Bollens, Councilwoman
Denton Burnell, Councilman
Joe Green, Chief Line Worker
Andrew Carrol, Chairman
Gary Herbert, Lansdale Mayor

As the first action item of the evening the committee voted unanimously to approve the December of 2022 minutes.

The committee reviewed the Electric Ordinance for EV charging. Committee suggested a separate tariff for commercial ev charging rate, charged to the owner of the chargers. This is to keep the rate open for adjustment compared to the ev charging market.

The second item on agenda was discussing the capital projects such as meeting with PPL next week to open the relay design for possible cost savings. Finishing final design of 2023 Bucket truck to take delivery in Nov. of 2023. Both unit substations drawings have been approved by engineering and will move forward to manufacturing. We hope to take delivery of these units later this year.

Committee then discussed department Operations such as the Freight House lot project, pole relocation and lighting. Cannon Ave. job, move pole line to other side of Cannon for apartment project @ 501 N. Cannon. Electric layout and prep for the new pavilion @ Whites RD Park.

In open discussion, the committee reviewed possible solar generation locations such as Whites Rd open space near Whites Rd Pumping station.

Meeting adjured 8:20pm
