Electric Committee Work Session Minutes

Attended:

Rachel Bollens, Chairwoman
Denton Burnell, Councilman
Andrew Krauss, Electric Superintendent
Gary Herbert, Lansdale Mayor
Glenn Dickerson, Lansdale Finance Director
Mr. John Darub, Resident

As the first action item of the evening the committee voted unanimously to approve the January of 2023 minutes. 2-0*

1. The committee reviewed and discussed solar generation possibilities, cost and look of the possible overall project at the Willow ST Park and pumping station. The committee has asked Mr. Krauss to have our energy consultant to update pricing and layouts for the next work session.
2. The committee then reviewed recommended Ordinance changes to allow for commercial customers to resell electric for the purpose of electric vehicle charging. While we have the Ordinance open, we will have Salzman/Hugues office review the Ordinance in its entirety. We will have more information in the next coming months.
3. Mr. Krauss went over the plan to change the Borough owned EV chargers out to a new manufacturer that will allow the Borough to charge a fee to use the Borough's charging infrastructure. Once we have pricing and more manufacture information we will present options to the committee.
4. Mr. Krauss then presented a power point on the History and operations of Lansdale electric that was presented to staff at the Borough wide staff meeting in January.
5. The committee then reviewed department operations for the month of January 2023
 - Utility relocation on the 500 block of North Canon Ave. for new apartments
 - Freight House lot utility work and LED lighting
 - 400 Penn ST fitness center service
 - PMEA training update for 2023
 - Patriot tree trimming throughout the North East section of the Borough
 - Last phase of homes at Anndale/Green
 - 400amp EV charging service at Borough Hall

New Business- Lansdale Electric is looking for a new 1st Class Lineworker

Meeting adjured 8:30pm
