Other Demolition Requirements:

- Must call 811 or 1-800-242-1776 a minimum of 3 business days before digging.
- All required safeguards must be in place and all utility connections discontinued & capped or removed prior to the start of demolition.
- All erosion controls must be in place for controlling stormwater runoff quantity & quality, impervious area & grading reduction, protection of natural depression areas, and sedimentation & compaction during the demolition phase.
- If land disturbance is anticipated National Pollutant Discharge Elimination System (NPDES) permits shall be obtained as required by Montgomery County Conservation District, DEP & EPA.
- Must meet the requirements of the Demolition safeguards as prescribed in chapter 33 of the 2015 IBC, Section 3303 for construction documents & a schedule of demolition, pedestrian protection, means of egress, vacant lot, water accumulation, utility connections & and all Federal (OSHA), State, Local codes, regulations & ordinances.

About 811

Building a deck? Planting a tree? Installing a mailbox? 811 is the new number you should call before you begin any digging project.

A new, federally-mandated national "Call Before You Dig" number, 811 was created to help protect you from unintentionally hitting underground utility lines while working on digging projects. People digging often make risky assumptions about whether or not they should get their utility lines marked due to concerns about project delays, costs and previous calls about other projects. These assumptions can be life-threatening.

Every digging job requires a call – even small projects like planting trees or shrubs. If you hit an underground utility line while digging, you can harm yourself or those around you, disrupt service to an entire neighborhood and potentially be responsible for fines and repair costs.

Smart digging means calling 811 before each job. Whether you are a homeowner or a professional excavator, one call to 811 gets your underground utility lines marked for FREE.

Don't assume you know what's below. Protect yourself and those around you – Call 811 every time.
